

CODED BIAS & ALGORITHMIC RACISM

The Racial State Week 13

Critical Listening...

Watch Joy Buolamwini talk about 'coded bias'

What are the implications of facial recognition for racialised policing, employment, social interaction, use of public space, dating...?

What further implications are raised by coded bias in the age of Covid-19?

What other issues can you imagine might become a problem in the future in terms of the intersection of race and digital technology?

Created by Alana Lentin, adapted from 'Coded Bias' by Joy Buolamwini
